

Give children a chance to blossom, flourish and thrive.

Contributions reduce tuition and expense barriers for under-resourced youth.

BENEFITS OF GIVING TO EDUCATION

Students

Social science and economic data show that education can break poverty cycles, improve health, increase career entry, advancement and lifetime earnings.

Community

Higher rates of education correlate with more civic involvement, lower unemployment, reduced dependence on public assistance and less crime and violence.

Health

Medical and psychology research have proven that charity boosts feelings of connectedness, increases perception of well-being, and lowers health risks.
